### Coat Sleeve

**Coat Sleeve:**  
Measure the customer (with jacket on) from under arm to break of wrist, along inside seam of the sleeve.

Do not measure to end of jacket sleeve.

**Important Measurement!**  
Take it twice to be on the safe side.

### Chest/Overarm

**Chest:**  
Measuring tape should be underneath arms and over largest part of chest.

**Overarm:**  
Measure over the arm with the jacket off, across the largest part of the chest and upper arms.

### Waist/Hips/Outseam

**Waist:** Measure just below bellybutton where dress pants are usually worn.

**Hips:** Measure across largest part of the seat and thigh.

**Outseam:** Measure from top of hipbone to just where shoe heel meets sole.

### Sleeve/Neck

**Shirt Sleeve:**  
Measure from center to top of back, over shoulder and down to wrist.

**Neck:**  
Measure around center of neck, adding a half inch to the measurement to ensure comfort.
